

Seasoned ESG Professionals with over 10 Years of Experience

◆ INTRODUCTION

Singapore Climate Reporting Landscape

Singapore's climate reporting requirements are evolving in line with ISSB standards, strengthening transparency, accountability and long-term business resilience.

◆ CLIMATE REPORTING REGULATORY TIMELINE

ISSB standards effective date

IFRS S1 and IFRS S2 (first issued in June 2023) can be adopted from 1 January 2024.

Mandatory Scope 1 & 2 Reporting

ISSB-aligned CRD for all listed issuers covering Scopes 1 and 2 GHG emissions.

Scope 3 Reporting Readiness

SGX-listed issuers to include Scope 3 in their CRD reporting.

External Limited Assurance

STI constituents to obtain external limited assurance for Scopes 1 and 2 GHG emissions.

FY 2024

FY 2025

FY 2026

FY 2027

Reporting Timeline: Sustainability report to be issued within 4 months after the end of the financial year, or 5 months if external assurance is conducted.

◆ WHY NOVA PLUS?

ISSB & SGX Alignment

Climate disclosure support aligned with evolving Singapore reporting expectations.

Emissions Reporting Readiness

Support for Scope 1, 2 and future Scope 3 reporting preparedness.

Practical ESG Implementation

Operationally focused ESG solutions designed for real business environments.

Governance & Assurance Readiness

Strengthening reporting quality, accountability and stakeholder confidence.

Nova Plus helps organisations navigate Singapore's evolving climate reporting, emissions disclosure, and ESG governance transition.

◆ HOW NOVA PLUS SUPPORTS ORGANISATIONS?

A practical and structured approach to strengthening emissions reporting, ESG governance, sustainability data systems, and ISSB-aligned disclosures.

- **Assess:** Evaluate ESG reporting maturity, disclosure gaps, and climate reporting readiness.
- **Measure:** Identify Scope 1, 2 and material Scope 3 emissions across operations and supply chains.
- **Organise:** Build ESG data workflows, dashboards, reporting templates, and audit-ready documentation.
- **Align:** Strengthen governance structures, sustainability policies, and ISSB reporting alignment.
- **Report:** Support sustainability disclosures, emissions reporting, and stakeholder communication.
- **Improve:** Enhance ESG capability, supplier engagement, and long-term operational resilience.
